

# Software professionals and digital experts on demand

***Pre-qualified tech experts. Swiss reliability. Team continuity.***

With our joint offering Techmatch, Cardea and Techteam combine many years of experience in supplier and project qualification with a curated network of experienced technology experts. We provide tech experts including developers, QA engineers, DevOps specialists, and AI experts who integrate seamlessly into existing teams – targeted support with the right specialist skills, ready to go within a few days.

## USP of the joint service «Techmatch»

### **1. Flexible & fast: The right tech expertise within a few days**

Techmatch provides you quick access to proven technology expertise – ready to use from 20% capacity and flexibly scalable. From one-off workshops to long-term engagements, we deliver the right expertise.

### **2. Vetted experts, Cardea quality standard**

Our network combines top-tier local, near-shore, and offshore experts who are assessed based on the proven Cardea evaluation methodology matching professional and technical knowledge, project, task or role-specific track record, and team and cultural fit.

### **3. Tailored delivery & quality assurance**

We determine your needs and identify the best solution for your requirements, ensure the best match, and are also there for you

during the course of the project (quality checks, replacements/expansions, substitutes).

## OUR SERVICES & EXPERTISE

Whether for one-off workshops or flexible short- to long-term projects, we provide the right expertise

### COMPETENCIES/TOPICS
